The existing and revised provisions of the Scheme are mentioned below:
dated August 28, 2019.

Invested Objective

Objective to invest in debt and money market instruments.

Asset allocation

Under normal circumstances, the asset allocation under the Scheme will be as follows:

Securities of the Underlying Index

- Index Futures
- Derivatives
- Securitized debts

Securities of the Underlying Index

- Commercial Paper
- Debt instruments
- Fixed Income Securities
- Money Market Instruments
- Equities and equity related instruments

The performance of the Scheme may not be commensurate with the performance of the Underlying Index. Subject to the Regulations and the disclosures as made under the Scheme, the performance of the Scheme may or may not exceed the performance of the Underlying Index.

Exposure to Derivatives

The Scheme may invest in derivative instruments with a view to capture the returns on the Underlying Index. The Scheme will be exposed to several risks associated with derivative instruments. The Scheme may enter into derivative deals, including repurchase and reverse repurchase deals. The Scheme may also enter into repurchase and reverse repurchase deals.

Risks Associated with this Strategy:

Various Derivatives Strategies:

1. Index Arbitrage:

The Scheme may invest in index arbitrage strategies to generate returns from the difference between the cash price of the index and the index futures price. The Scheme may use index arbitrage strategies to generate returns from the difference between the cash price of the index and the index futures price. The Scheme may use index arbitrage strategies to generate returns from the difference between the cash price of the index and the index futures price. The Scheme may use index arbitrage strategies to generate returns from the difference between the cash price of the index and the index futures price. The Scheme may use index arbitrage strategies to generate returns from the difference between the cash price of the index and the index futures price.

2. Index Options:

The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk.

3. Index Futures:

The Scheme may invest in index futures to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index futures to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index futures to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index futures to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index futures to allow investors to participate in the upside of the Underlying Index while limiting their downside risk.

4. Index Option:

The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk. The Scheme may invest in index options to allow investors to participate in the upside of the Underlying Index while limiting their downside risk.
Risk factors and deviations

The Scheme will invest in derivatives.

The Scheme may vary various derivative products as permitted by SEBI for achieving the investment objective. Such selection will be in line with an understanding of only the underlying instrument but not of the derivative.

Moreover, the Scheme may use derivative instruments, such as futures, options or swaps, for purposes of hedging and portfolio management. The use of derivative instruments involves risks and may result in losses to the investor. Risk factors associated with derivatives include:

- The Scheme may use derivative instruments to lock in the exchange rate.
- The Scheme will enter into derivative transactions in accordance with SEBI regulations and guidelines.
- The Scheme will use derivative instruments to ensure risk management and security of investments.
- The Scheme may use derivative instruments to mitigate market risks and volatility.
- The Scheme may use derivative instruments to manage currency risk.
- The Scheme may use derivative instruments for other purposes as permitted by SEBI.

Investment features

The Scheme will comply with the provisions specified under SEBI (Mutual Funds) Regulations, 1996, and the Income Tax Act, 1961, including any amendments there to. The income tax implications applicable for derivative transactions as stated above.

The Scheme will use derivative instruments for achieving the investment objective. Derivative instruments are complex.

- The proportionate amount of derivatives as a percentage of the net asset value of the scheme shall not exceed 30% of the net asset value of the scheme.
- The Scheme will enter into derivative transactions in accordance with SEBI regulations and guidelines.
- The Scheme will invest in derivatives.
- The Scheme will invest in other derivative products as permitted by SEBI.

In case of any conflict between the terms of the Trust Agreement and the SEBI regulations/guidelines, the terms of the Trust Agreement shall prevail.
